

From Your ISACA-CNY Chapter President

Hello ISACA Members -

Suddenly, we are well into the fall and I'm sure everyone is busy at work and otherwise. This newsletter is late because we had a last-minute cancellation from our scheduled speaker at the next chapter meeting. Regretfully, we have decided to cancel the November meeting.

Please keep January 18th open, as that is our joint meeting with the IIA.

As always, please feel free to contact me, or any of the Board members with questions, concerns or comments.

Look for the next newsletter in December. In the meantime, stay warm & dry!

Chris Bord
ISACA-CNY Chapter President

CISA® and CISM® certification –
the only thing missing is... 

CISA/CISM News

Registration for the 9 December 2006 CISA and CISM exams is now closed.

ISACA has again enjoyed an overwhelming response for the December CISA and CISM exams.

Changes to registration information, such as exam site or language, are no longer being accepted. However, candidates unable to take the exam can request a deferral of their registration fees to the next exam.

Deferral requests received from 2 November 2006 through 1 December 2006 will be charged a processing fee of US \$100. Deferral requests will not be accepted after 1 December 2006.

To ensure the timely receipt of candidates' admission tickets and exam results, please report any changes in registration information to the certification department immediately.

Additionally, the CISM exam in December 2006 will be the last one using the current CISM job practice areas and that candidates should be using the 2006 CISM study materials.

The 2007 CISA and CISM study aids published by ISACA to prepare for the 2007 exams are now available.

Applications for Certification

Please remember that CISA and CISM application processing can take eight weeks from receipt of complete application.

Further application details are available at
www.isaca.org/cisaapp
or
www.isaca.org/cismapp.

CISA
CERTIFIED INFORMATION SYSTEMS AUDITOR™

CISM
CERTIFIED INFORMATION SECURITY MANAGER™

CISA (Certified Information Systems Auditor) is ISACA's cornerstone certification. Since 1978, the CISA exam has measured excellence in the area of IS auditing, control and security. CISA has grown to be globally recognized and adopted worldwide as a symbol of achievement. More than 44,000 individuals have earned the CISA since its inception.

CISM (Certified Information Security Manager) is ISACA's credential geared toward experienced information security managers and those who have information security management responsibilities. CISM is designed to provide executive management with assurance that those earning the designation have the required knowledge and ability to provide effective security management and consulting. It is business-oriented and focuses on information risk management while addressing management, design and technical security issues at a conceptual level. While its central focus is security management, all those in the IS profession with security experience will certainly find value in CISM.

For more information on CISA/CISM certifications, please contact the Chapter's
CISA/CISM Coordinator, [Stephen Klingaman](mailto:Stephen.Klingaman@isaca.org)

News From ISACA

ISACA Training Weeks

4-8 December 2006 - Orlando, Florida, USA

26 February-2 March 2007 - Washington DC, USA

7-11 May 2007 - Denver, Colorado, USA

ISACA Training Weeks are designed to provide intensive instruction about proven strategies and techniques based on best practices and lessons learned from the ISACA community. For more information on these and other events and to register, please visit

<http://www.isaca.org/trainingweek>.

IT Control Objectives for Sarbanes-Oxley, 2nd Edition

After an exposure period in the second quarter, the final publication is now available. It provides CIOs, IT managers, and control and assurance professionals with scoping and assessment ideas, approaches and guidance in support of the IT-related Committee of Sponsoring Organizations of the Treadway Commission (COSO) internal control objectives for financial reporting. A streamlined road map is provided to help turn compliance into a competitive challenge.

The second edition is updated for recent US Securities and Exchange Commission and Public Company Accounting and Oversight Board guidance related to entity level controls, risk-based/top-down approach, application controls and evaluation of deficiencies, as well as an update for COBIT® 4.0 references. It is posted as a complimentary download at

www.isaca.org/downloads.

ISACA E-Symposia

ISACA is pleased to offer an e-symposium each month as a free benefit to members. The e-symposia are live, online events featuring industry leaders. All events are archived for future viewing. Each member may earn three continuing professional education (CPE) credits by participating in the live event or listening to the archive, and completing a short quiz.

Recent symposia sessions have included Taking Control—The Challenges of Compliance, Security Metrics and IT Governance. The November and December e-symposia topics are assurance and security management. Invitations for each event are sent via e-mail. Members should register early to secure their place and participate in the event via chat and message boards.

COBIT® Mapping: Mapping of ITIL With COBIT® 4.0

The Information Technology Infrastructure Library (ITIL), released by the UK Office of Governance Commerce, consists of 10 processes—more commonly understood as service support (operational) and service delivery (tactical) processes—that comprise one function, effective IT service management. This mapping document contains a detailed mapping of ITIL with COBIT 4.0. It will be posted as a complimentary download for ISACA members in the fourth quarter of 2006 at

www.isaca.org/downloads.
