

Chapter Meeting

“Electronic Document Security – Protecting Confidential Information”

PRESENTER

Steve Moscarelli

DATE

October 19, 2006

TIME

Board Meeting: 9:00 AM
Registration: 9:45 AM
Program: 10:00 AM-12:00 PM
Lunch/Networking: 12:00-1:00 PM

COST

Members: \$20
Non-Members: \$25

LOCATION

Corinthian Club
930 James Street
Syracuse, NY 13203
(315) 422-9917
See map on page 2

PRE-REGISTRATION
by October 12, 2006

Please let Kathleen Wojslaw know if you will be attending. Contact her at (315) 470-9213 or kathleen.wojslaw@crucible.com

This program provides you with 1.5 CPEs

About the Program

Corporations are seeing increased leaks of confidential information as can be observed in the news every day. Consumers are increasingly concerned with privacy issues. In late 2006, these issues are coinciding with heightened regulatory pressure on public and private organizations in the United States. Insurance issues, legal ramifications, and of course negative publicity have caused attention in the information security industry to focus on protecting confidential information. Many ways to protect data are in use today, but they are evolving rapidly and they will be discussed.

About the Speaker

Steve Moscarelli has worked in the general security industry since 1992 and in the information security industry since 1995 at Check Point Software and other leading vendors. Based on visits to hundreds of Information Security departments, Steve can tell you what the best of them are doing. Steve is a member of Information Systems Security Association and Computer Security Institute and has spoken to graduate students at DePaul University, Marquette University and to ISSA chapters nationwide.

Map to the Corinthian Club

To get to the Corinthian Club from I-90, NYS Thruway, use Exit 36, I-81. After the tollbooth turn right onto I-81 South, exit at Clinton/Salina Streets (19), merge left onto N. Salina St., turn left on E. Willow St., turn right on N. State St., then left on James St.

To get to the Corinthian Club from I-81 Northbound, take Adams St. Exit (18), go straight onto Almond St., turn left onto E. Genesee St., turn right onto S. McBride St., turn right onto James St.

From Your ISACA-CNY Chapter President

Hello ISACA Members –

At our meeting last May, we elected a new Chapter Board, which included Jim Brulé as the incoming President. We recently received news that Jim was inundated with business opportunities and wouldn't be able to continue in his new role. As our Chapter by-laws indicate that the Board is to fill any vacancies, these words are mine instead of Jim's; I'm as surprised by this as anyone!

I'm relatively new to the auditing profession – I started as an IT (Internal) Auditor for Utica National Insurance in August 2005, and I joined ISACA the next month. Prior to becoming an auditor, I spent eight years as a computer network administrator/technician with various companies throughout the Mohawk Valley area, earning MCSE (Microsoft), CNE (Novell) and ASE (Compaq) certifications. Prior to that I owned and operated a stage lighting company, which occasionally took me as far as Off-Broadway. (I quit because the hours in stage work are pretty rough – I don't know why I thought being an on-call computer administrator would be any better!) I've been with Utica National since 2004, and over the same timeframe I've been

pursuing a double major in Accounting/Information Systems at SUNY Institute of Technology (Utica/Rome).

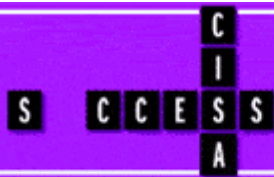

The Chapter Board is hard at work bringing together some great program and networking opportunities for the upcoming year. It's my privilege to serve in this capacity, and I look forward to meeting many of you at our upcoming meetings. Please don't hesitate to contact me, or any of the Board members with questions, concerns or comments as we go forward.

Best regards,

Chris Bord
ISACA-CNY Chapter President

CISA® and CISM® certification –
the only thing missing is... 

CISA/CISM News

December 2006 Exam Registration and BOI

Registration for the 9 December 2006 CISA and CISM exams is underway. To view additional details, including exam costs and a list of test sites, please read the CISA or CISM Bulletin of Information (BOI) at:

<http://www.isaca.org/cisaboi> or
<http://www.isaca.org/cismboi>.

Registration is available online at:

<http://www.isaca.org/examreg>.

Final registration deadline:
27 September 2006

For those already registered, changes to registration information, such as exam site or language, are free of charge until 12 October. A US \$50 fee is required for all changes to CISA exam registration changes received between 13 October and 27 October 2006. No changes will be accepted after 27 October 2006.

Applications for Certification

Since the release of the June exam results, a large number of applications have been received at International Headquarters. Exam passers are not certified until they have submitted their application and received approval from the board. The CISA/CISM designation may not be used until that approval has been received. *There are hundreds of exam passers from the 2001-2005 exams who have not submitted their applications.* These members should submit their applications if they meet all of the requirements. If they do not apply within five years of their exam date, their score is invalidated. Further application details are available at:

<http://www.isaca.org/cisaapp> or
<http://www.isaca.org/cismapp>.

CISA[®]
CERTIFIED INFORMATION SYSTEMS AUDITOR[™]

CISM[®]
CERTIFIED INFORMATION
SECURITY MANAGER[™]

CISA (Certified Information Systems Auditor) is ISACA's cornerstone certification. Since 1978, the CISA exam has measured excellence in the area of IS auditing, control and security. CISA has grown to be globally recognized and adopted worldwide as a symbol of achievement. More than 44,000 individuals have earned the CISA since its inception.

CISM (Certified Information Security Manager) is ISACA's credential geared toward experienced information security managers and those who have information security management responsibilities. CISM is designed to provide executive management with assurance that those earning the designation have the required knowledge and ability to provide effective security management and consulting. It is business-oriented and focuses on information risk management while addressing management, design and technical security issues at a conceptual level. While its central focus is security management, all those in the IS profession with security experience will certainly find value in CISM.

For more information on CISA/CISM certifications, please contact the Chapter's
CISA/CISM Coordinator, [Stephen Klingaman](#)

News From ISACA

ISACA Training Week

9-13 October 2006 - Budapest, Hungary
6-10 November 2006 - Dallas, Texas, USA
4-8 December 2006 - Orlando, Florida, USA

ISACA Training Weeks are designed to provide intensive instruction about proven strategies and techniques based on best practices and lessons learned from the ISACA community. For more information on these and other events and to register, please visit

<http://www.isaca.org/trainingweek>.

Sarbanes-Oxley Symposium

12-13 October 2006 - Arlington, Virginia, USA

Designed for individuals at organizations that are compliant and have been through their first compliance audit, the symposium will discuss best practices, lessons learned and common pitfalls to continue to improve the process into the next round of attestation audits. This informative, two-day symposium will feature the second edition of the popular publication IT Control Objectives for Sarbanes-Oxley. For more information and to register, please visit the ISACA web site at

<http://www.isaca.org/soxsymposium>.

COBIT User Convention

28-29 September 2006 - Washington DC, USA
2-3 November 2006 - Canberra, ACT, Australia

Designed specifically for users of COBIT, this two-day educational event features case studies and facilitated discussion groups that address how COBIT is being used to identify, quantify and mitigate business risks; implement IT service improvements; satisfy control and regulatory needs; and establish performance measurement requirements. For more information and to register, please visit

<http://www.isaca.org/cobituserconvention>.

COBIT® Mapping: Mapping of ISO/IEC 17799:2005 With COBIT® 4.0

ISO/IEC 17799:2005 The Code of Practice for Information Security Management is an international standard based on BS 7799-1/ISO/IEC 17799:2000. It is presented as best practice for implementing information security management. This mapping document contains a detailed mapping of ISO/IEC 17799:2005 with COBIT 4.0. It will be posted as a *complimentary download* for ISACA members in the fourth quarter of 2006.

For all COBIT mapping publications, see
<http://www.isaca.org/downloads>.

Security, Audit and Control Features PeopleSoft®: A Technical and Risk Management Reference Guide, 2nd Edition

This guide has been updated to cover the human resources and payroll components of PeopleSoft 8.8 and has been written with business managers and IT and assurance professionals in mind. Revisions address:

- Release 8.8 of PeopleSoft HRMS
- Third-party audit tools
- Investigatory tools, such as ACL's CCM technology
- New directions in PeopleSoft that provide support for regulatory requirements, including PeopleSoft Enterprise Financial Management 8.9, which helps provide greater levels of financial control, transparency and accountability to support various regulatory requirements, including Sarbanes-Oxley and International Financial Reporting Standards (IFRS)
- Audit programs and internal control questionnaires cross-referenced to COBIT 4.0

This publication is available at the ISACA Bookstore, <http://www.isaca.org/bookstore>.
